

Evidencing the use of the PE and Sport Premium funding: Action plan and Impact Review

The DfE Vision for the Primary PE and Sport Premium

ALL pupils leaving primary school **physically literate** and with the **knowledge, skills and motivation** necessary to equip them for a **healthy, active lifestyle** and **lifelong participation** in physical activity and sport.

As with every Primary School in the country, for the 2017 – 2018 Academic Year, Stondon Lower School has been provided with additional funding of £17,410 to improve the provision of Physical Education and sport in our school.

The funding has been provided to ensure impact against the following: Objective and Indicators:

Objective: To achieve self-sustaining improvement in the quality of PE and sport in primary schools.

Indicators: We would expect indicators of such improvement to include:

1. the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
2. the profile of PE and sport being raised across the school as a tool for whole school improvement
3. increased confidence, knowledge and skills of all staff in teaching PE and sport
4. broader experience of a range of sports and activities offered to all pupils
5. increased participation in competitive sport

It is important to emphasise that the focus of spending must be sustainable and leave a lasting legacy beyond the funding allocation.

It is expected that the school will use the funding to make additional and sustainable improvements to the quality of PE and sport we offer. Please note that the funding cannot be used to:

- employ coaches or specialist teachers to cover planning preparation and assessment (PPA) arrangements
- teach the minimum requirements of the national curriculum – including those specified for swimming.

*Schools may choose to use the Primary PE and Sport Premium to provide swimming opportunities **over and above** the national curriculum requirements already in place in the school.*

Our Vision:

Stondon Lower School aims to make considered choices on how to spend this money, to ensure that our decisions impact directly on the children's Physical Education and participation in activities which promote a healthy, active life style. Our overall vision is to improve the quality, breadth and consistency of our provision of Physical Education and sport and we aspire to spend every penny to ensure maximum impact, both short and long-term. We are proud of the decisions we have made this year which are based on the following principles.

Principles:

- The funding is ring-fenced for Physical Education and Sport at Stondon Lower.
- Decisions on spending impact directly on the quality of our children's received Physical Education.
- Any investment in specialist teaching of children must be done in conjunction and collaboration with the classroom teacher to enhance the long-term impact of Physical Education at Stondon Lower
- Sports Premium funding is allocated following a needs analysis which will identify priority areas for Physical Education.
- Investment must raise the levels of pupil's progress and attainment in Physical Education
- Allocation of funding will encourage maximum participation in sport across the school
- Funding will promote a broad range of sports activities, including providing a platform to celebrate children's interests outside of school

Academic Year:	2017 - 2018
Total Funding Allocation: (includes funding b/f from previous years)	22,256
Budgeted spend: capital	9,635
